JOGA judging and recent trends in Japan

Hiroto Goda

Kokusai Nursery Co., Ltd., Isehara, Kanagawa, Japan

Japan Orchid Growers Association (JOGA) has served hobbyists and professional growers in Japan as one of the leading judging agents for about half a century. The distinct four seasons in Japan have made it possible to grow and enjoy virtually any kind of orchids available for cultivation today, with proper air conditioning. For that reason, the JOGA judging has closely reflected the diversity and trends in orchid cultivation in Japan. This presentation provides you with an overview of the JOGA judging, including its history, system, and the recent trends in awards, by looking at some interesting statistics and pictures of notable award-winning flowers.
